Passionate computer science graduate eager to gain experience in data-related fields. Extremely competent leader, having led multiple projects to completion including new features for a stock screener app, ChartBot. Very quick and eager to learn new skills, acquiring an understanding of Visual Studio Code, Javascript, Android Studio, React Native and Slack for a previous project.

Skills

- Proficient in Python, R, SQL, Java, Julia, Javascript, HTML, UNIX Shell Script, and C.
- Adept with Jupyter Notebook, Google Collab, RStudio, Tableau, Amazon Web Service, MySQL, Microsoft Excel, Microsoft Word, and Visual Studio Code.
- Experience in Windows, Linux, Kali, and Ubuntu operating systems.
- Ability to type 40+ WPM with 90%+ accuracy.

Work Experience

Agape Eco Nail Salon

Folsom, California

Data Analyst Intern

Jan. 2020 - May. 2020

- Used statistical tools from RStudio to filter and clean data to optimize expenses and increase the company's revenue.
- Provided ongoing HTML webpages of monthly projections and annual predictions for management to review.
- Used my knowledge to translate the R scripts into Python for my own practice.
- Implemented changes with the use of Python and Tableau while increasing my knowledge with the language and program.
